

separator for CNC Machine

Jenfu

Jenfu Machinery
since 1991

PATENT High Flow

Jenfu	UP to 4200L/hr <small>*choice Submersible upmp</small>
	1800L/hr
A	1200L/hr
B	1200L/hr

Patent Oil collecting system Uninterruptible ,Smaller

CHOICE
Submersible pump

NO Filter

LOW
Moisture in Oil

GOOD
Quility

no air require

Silent

horizontal

dont need
Correction

Feature

1.Small size,High Flow,Up to 70L/Min

our separator is high flow and small, up to 70L/min, or 30L/min, we provide you the small and high flow machine. easy to install in narrow place.

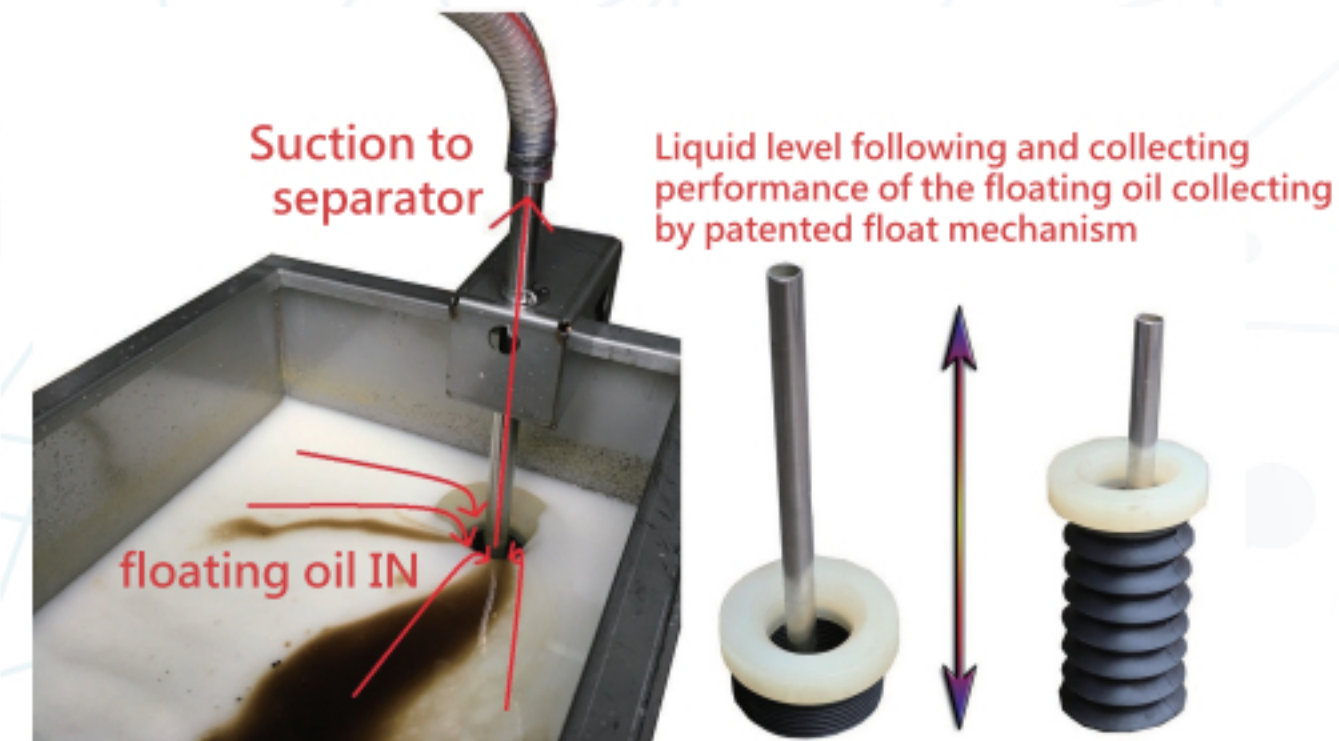

2.Uninterruptible Oil collecting system

Smaller than Traditional 3 ball system, easy to install in narrow place and traditional 3ball or 6 ball system, they are not Uninterruptible. if the water is not stable. air will go into the pump, it will damage the pump. and make the separator stop. our Uninterruptible oil collect system always working, no stop.stable.

3. NO air source require. Silent , SAVE power.

4. LOW Moisture in oil

5. Do not need to correct the horizontal , easy install

SPEC

MODEL : WNC-30
SIZE : 350mmX410mmX1270mm
POWER : 110V/220V
power consumption : 160W
Control :
24hrs timer control / Manual
TANK capacity: 2 L

Flow

Build in Pump

30L/Min

small size

Filter (filter to 5mm)

For Customer who need space

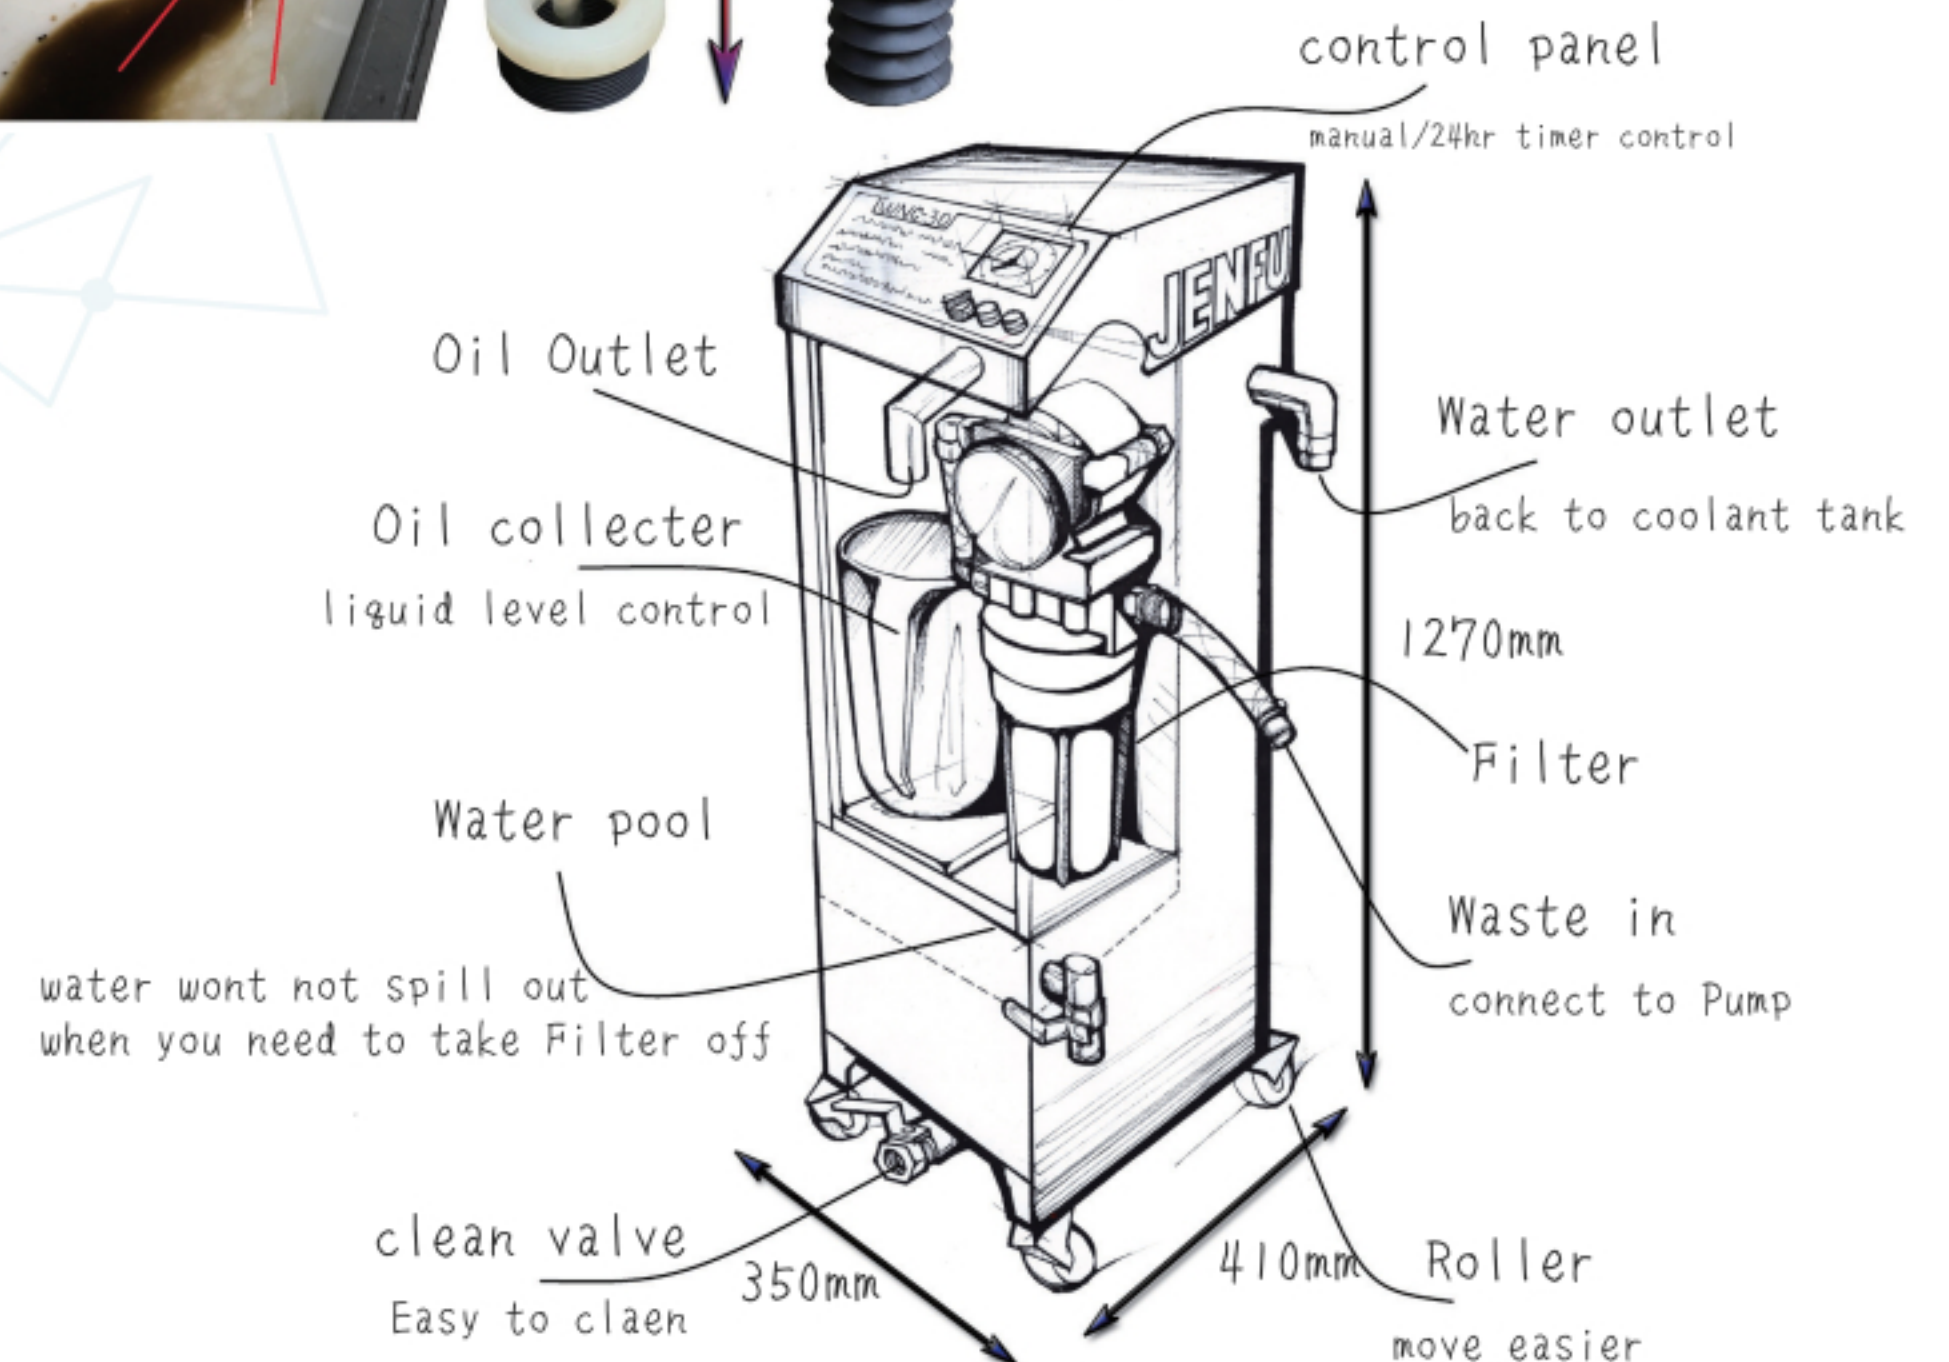

Submersible Pump

70L/Min

High flow

NO Filter require

For Customer who need more flow!
